A financial transaction tax is a levy on a specific type of financial transaction for a particular purpose. The concept has been most commonly associated with the financial sector; it is not usually considered to include consumption taxes paid by consumers.. A transaction tax is not a levy on financial institutions per se; rather, it is charged only on the specific transactions that are ...

Data Element: One or more data items, forming a unit or piece of information as defined in the data dictionary of a system of EDI Standards, and contained in an EDI message or transaction set. The term "data element" is often abbreviated as "DE" followed immediately by the data element number (i.e., data element 128 would be abbreviated as DE128) in some texts.
