As you can see, simplifying radicals that contain variables works exactly the same way as simplifying radicals that contain only numbers. We factor, find things that are squares (or, which is the same thing, find factors that occur in pairs), and then we pull out one copy of whatever was squared (or of whatever we'd found a pair of).

Simplifying / Multiplying Radicals | Purplemath

Parents: Monitor the amount of time and the time of day your children spend playing video games and using technology. Caution: Technology use can have negative affects on the body, and may affect sleep and concentration. Dunckley (2011) indicated when video games and electronic devices are used in the dark, the unnatural brightness of the screen inhibits the body from producing melatonin, the ...
