It's an old cliché: "What gets measured gets done." The origin of the statement is up for debate (click here if you want to geek out a bit on that - some say it goes back to Rhetoric in ...

What Gets Measured Gets Done. Or Does It? - Forbes

SMART is a mnemonic/acronym, giving criteria to guide in the setting of objectives, for example in project management, employee-performance management and personal development. The letters S and M generally mean specific and measurable. Possibly the most common version has the remaining letters referring to achievable (or attainable), relevant, and time-bound.
