A mining accident is an accident that occurs during the process of mining minerals. Thousands of miners die from mining accidents each year, especially from underground coal mining, although hard rock mining is not immune from accidents. Coal mining is considered much more hazardous than hard rock mining due to flat-lying rock strata, generally incompetent rock, the presence of methane gas, and ...

It wasn't until six months later that teams were able to raise the ship. Inside an airtight storeroom, they found the bodies of three sailors -- Ronald Endicott, Clifford Olds, and Louis Costin -- alongside piles of opened food rations, flashlight batteries, and a freshwater tank. According to a calendar that was found in the room, the men had survived for 16 days before suffocating.
