via GIPHY. To achieve these goals, toddlers seem to generate sub-goals within the space of their basic knowledge, engaging in temporal abstraction. If we use the recipe for beef bourguignon as an example, the cutting process of an onion is a temporally extended action and can take different numbers of steps to complete depending on the required cutting fineness.

Mutationism is one of several alternatives to evolution by natural selection that have existed both before and after the publication of Charles Darwin's 1859 book, *On the Origin of Species*. In the theory, mutation was the source of novelty, creating new forms and new species, potentially instantaneously, in a sudden jump. This was envisaged as driving evolution, which was limited by the supply ...
