Systems engineering signifies only an approach and, more recently, a discipline in engineering. The aim of education in systems engineering is to formalize various approaches simply and in doing so, identify new methods and research opportunities similar to that which occurs in other fields of engineering.

More than half a century ago, the British battlecruiser HMS Hood and the German battleship Bismarck fought what was arguably one of the most famous surface engagements of the Second World War. In an instant on the morning of the 24th of May, 1941, the Royal Navy lost the symbolic flagship of its fleet and the battleship Bismarck, which would have otherwise had an interesting but unremarkable ...
