Monroe Environmental engineers, designs, builds, & installs air pollution control & water/wastewater treatment systems for industrial & municipal sites.

**Air Pollution Control & Water/Wastewater Treatment Solutions**

Nutrient pollution in the water and air is often the direct result of a range of human activities including agriculture, stormwater and fossil fuel use.

**Sources and Solutions | Nutrient Pollution | US EPA**

Information about the types, causes, and effects of water pollution and what we can do to solve the problem.

**Water pollution: An introduction to causes, effects, solutions**

Water pollution is the contamination of water bodies, usually as a result of human activities. Water bodies include for example lakes, rivers, oceans, aquifers and groundwater. Water pollution results when contaminants are introduced into the natural environment. For example, releasing inadequately treated wastewater into natural water bodies can lead to degradation of aquatic ecosystems.
