Identifying Ferns. Unlike many other vascular plants, ferns do not have aerial stems. The leaves arise from an underground stem, called a rhizome. The entire fern leaf is called a frond. The frond consists of the stipe and the blade. The continuation of the stipe to which the leaves are attached is called the rachis. A leaflet is called a pinna (plural, pinnae).

I agree with the guy above you, getting is seems much easier then getting out if you use good boating skills. Going out, you're going to beat the shit out of yourself, even following good boating

skills, coming in means you're using good boating skills and usually you can "surf" in on the back of a wave, if you pay attention, no pounding.
