Science Chemistry States of matter and intermolecular forces Mixtures and solutions. Mixtures and solutions. Molarity. This is the currently selected item. ... Definitions of solution, solute, and solvent. How molarity is used to quantify the concentration of solute, and calculations related to molarity.

Molarity: how to calculate the molarity formula (article ...

In chemistry, a solution is a special type of homogeneous mixture composed of two or more substances. In such a mixture, a solute is a substance dissolved in another substance, known as a solvent. The mixing process of a solution happens at a scale where the effects of chemical polarity are involved, resulting in interactions that are specific to solvation.

Solution - Wikipedia

Solutions in Chemistry. Solution is a homogeneous mixture of two or more substances on molecular level. A solution of two substances is called a binary solution. The substances forming the solution are called components of the solutions.

NEET Chemistry Notes Solutions - Solutions in Chemistry ...

Chemistry Notes For Class 12 PDF are very important, as Chemistry of Class 12 is very vast. You will have to study Notes very effectively to understand both Physical and Organic Chemistry of NCERT Book. In this post, we at TuitionHour have brought the Chapter wise CBSE chemistry Notes in Hindi and English
