Happy Child Summit: 20 Expert Interviews on Raising Happy ...

Right from birth, kids learn new skills at a dizzying rate. And along with those new abilities, they also acquire the confidence to use them. As children get older, that confidence can be as important as the skills themselves. To thrive, kids need to trust in their own capabilities while, at the same time, knowing that they can handle it if they aren't successful at something.

When the leaders of a major retail pharmacy chain set out to enhance customer satisfaction, market research told them that the number one determinant would be friendly and courteous service. This meant changing the organizational culture in hundreds of locations—creating an open, welcoming ...

Three Secrets of Organizational Effectiveness

You may think you live on a planet, but really you live on a gigantic farm, one occasionally broken up by cities, forests and the oceans. Some 40% of the world's land surface is used for the purposes of keeping all 7 billion of us fed — albeit some of us, of course, more than others.

New Study Shows the Major Environmental Impact of Meat ...

Agreed. I tend to over-explain things to my patients because some people really are that dumb. Once had a mom call because she needed a new bottle of her child's ORAL antibiotics (for an ear infection)... she said she kept spilling the medication because he cried and tried to squirm away every time she tried to put it in his EAR.

The Problem Few other subjects in school take the trouble to help students learn how to generate original ideas, designs, and composition. In art class, even though the ability to generate ideas is central to the process of art and central to the success of artists, many art teachers do not realize that idea generation can be intentionally taught.
