Geometry Textbooks - Homework Help and Answers :: Slader

How would I "inflate" a polygon? That is, I want to do something similar to this: The requirement is that the new (inflated) polygon's edges/points are all at the same constant distance from the old (original) polygon's (on the example picture they are not, since then it would have to use arcs for inflated vertices, but let's forget about that for now ;)).

An algorithm for inflating/deflating (offsetting ...

Similar triangles have the same characteristics as similar figures but can be identified much more easily. Learn the shortcuts for identifying similar triangles here and test your ability with a quiz.
