Obstetrics procedure codes have a first character value of "1". The second character value for body system is Pregnancy. The root operations Change, Drainage, Extraction, Insertion, Inspection, Removal, Repair, Reposition, Resection and Transplantation are used in the obstetrics section, and have the same meaning as in the medical and surgical section.

ICD-10-PCS Procedure Codes - 2019 Complete Reference

Reproduction (or procreation or breeding) is the biological process by which new individual organisms – "offspring" – are produced from their "parents". Reproduction is a fundamental feature of all known life; each individual organism exists as the result of reproduction. There are two forms of reproduction: asexual and sexual. In asexual reproduction, an organism can reproduce without the ...

Reproduction - Wikipedia

The Disappearing Male is about one of the most important, and least publicized, issues facing the human species: the toxic threat to the male reproductive system.. The last few decades have seen steady and dramatic increases in the incidence of boys and young men suffering from genital deformities, low sperm count, sperm abnormalities and testicular cancer.

The Disappearing Male - Top Documentary Films

Female (♀) is the sex of an organism, or a part of an organism, that produces non-mobile ova (egg cells). Barring rare medical conditions, most female mammals, including female humans, have two X chromosomes. Female characteristics vary between different species with some species containing more well defined female characteristics.

Female - Wikipedia

Glossary of Biological Terms ← BACK. C 3 pathway. See Calvin cycle.. C 3 plant. A plant that uses the Calvin cycle for the initial steps that incorporate CO₂ into organic material, forming a three-carbon compound as the first stable intermediate.. C 4 pathway. [Inside Front Cover] - National Park Service

The most striking form of chimera is the Bilateral Gynandromorph, which displays it's obvious male and female attributes right down the middle. To even further complicate things, there is also asexual reproduction, which, being neither male nor female, could be considered a third sex (not-male and not-female).. There is also so recent research that there may be other sexes in more complex ...
