"The EvoBeaker™ labs have worked really nicely — they are a great way to reinforce important concepts we're covering in class. The students seemed to especially like the Darwinian Snails exercise —the game-like aspect 'try to maximize your crab happiness score'.

### **Darwinian Snails | SimBio**

This tutorial-style lab investigates the requirements for evolution by natural selection using an engaging simulation of crab predation on snails. Students are able to manipulate the snail population to sequentially "turn off" variation, heritability, and differential survival based on shell thickness to investigate the importance of each of these factors.
