Community Reviews. Jeff Edwards' Sea of Shadows (Stealth Books 2010) is a marvelous military thriller, especially if you're a SWO officer serving on an American Destroyer. The story posits an oil-impooverished German nation, forced to trade some of the most modern weapons in the world to terrorists to get the oil the country can't survive without.

Jeff Edwards is a newly discovered author for me, but he quickly won me over. I am a dedicated Clive Cussler aficionado, so when Dirk was reading a Jeff Edwards book I was, naturally, intrigued. I really enjoy the truthfulness, technical veracity and complexity of his books.

review 1: This book by Jeff Edwards has apparently been relabeled as Sea of Shadows in 2011. I guess the main title of Torpedo was a little simplistic. If you are a fan of Naval Warfare, and especially if you are interested in the ramification of what might happen in the coming months and

years in the Persian Gulf, do not pass up this book.
