Sociology Review Answers

Sociology is the study of society, patterns of social relationships, social interaction, and culture of everyday life. It is a social science that uses various methods of empirical investigation and critical analysis to develop a body of knowledge about social order, acceptance, and change or social evolution. While some sociologists conduct research that may be applied directly to social ...

Sociology - Wikipedia

Sociology: Sociology, a social science that studies human societies, their interactions, and the processes that preserve and change them. It does this by examining the dynamics of constituent parts of societies such as institutions, communities, populations, and gender, racial, or age groups.

Sociology, Anthropology, and Social Work | Kansas State ...

Sociology as a scholarly discipline emerged primarily out of the Enlightenment thought, shortly after the French Revolution, as a positivist science of society. Its genesis owed to various key movements in the philosophy of science and the philosophy of knowledge. Social analysis in a broader sense, however, has origins in the common stock of philosophy and necessarily pre-dates the field.
