Section 2-13 : Rational Inequalities. In this section we will solve inequalities that involve rational expressions. The process for solving rational inequalities is nearly identical to the process for solving polynomial inequalities with a few minor differences.. Let's just jump straight into some examples.

In this final section of the Solving chapter we will solve inequalities that involve absolute value. As we will see the process for solving inequalities with a $<$ (i.e. a less than) is very different from solving an inequality with a $>$ (i.e. greater than).

Algebra - Absolute Value Inequalities

This sections illustrates the process of solving trigonometric equations of various forms. It also shows you how to check your answer three different ways: algebraically, graphically, and using the concept of equivalence. The following table is a partial lists of typical equations.

SOLVING TRIGONOMETRIC EQUATIONS

Solution Set Any and all value(s) of the variable(s) that satisfies an equation, inequality, system of equations, or system of inequalities.. With a system of equations or system of inequalities, the solution set is the set containing value(s) of the variable(s) that satisfy all equations and/or inequalities in the system.

The solution $\pi*k$ contains the parameter k and is valid under the condition $\text{in}(k, 'integer')$. This condition means the parameter k must be an integer. k does not exist in the MATLAB® workspace and must be accessed using `param..` Find a valid value of k for $0 < x < 2*\pi$ by assuming the condition, `cond`, and using `solve` to solve these conditions for k . Substitute the value of k found into the ...

For the basic inequality $a < b + c$, see Triangle inequality. For inequalities of acute or obtuse triangles, see Acute and obtuse triangles.. In geometry, triangle inequalities are inequalities involving the parameters of triangles, that hold for every triangle, or for every triangle meeting certain conditions. The inequalities give an ordering of two different values: they are of the form "less ...
