We explained Robotic Process Automation before. RPA has a fancy name and >50 solution providers, however few people I have spoken to could pinpoint exact areas where RPA can be applied.. So we prepared the most complete list of all RPA use cases/application areas and categorized them to in 5 buckets:

### **57 RPA Use Cases/ Applications: in-Depth Guide [2019 update]**

Process costing is an accounting methodology that traces and accumulates direct costs, and allocates indirect costs of a manufacturing process. Costs are assigned to products, usually in a large batch, which might include an entire month's production. Eventually, costs have to be allocated to individual units of product.

### **Process costing - Wikipedia**

To achieve this goal, we aim to really get to know candidates and allow them to do the same with us. While we understand that searching for a new job can lead to a range of emotions, we've tried to ease job search stress with a simple process that supports our getting to know each other.
