Seeing Clearly In Too Deep

Community Reviews. Seeing Clearly is the second book in the In Too Deep series by Casey McMillin. I absolutely love this series, but again I hated the abrupt ending to this book. If the author could just do one more chapter or an epilogue then this book would easily be a five star book, but the way it ends I just can't give it 5 stars.

The greatest thing a human soul ever does in this world is to see something, and tell what it saw in a plain way. Hundreds of people can talk for one who can think, but thousands can think for one who can see. To see clearly is poetry, prophecy, and religion - all in one. - John Ruskin, Modern Painters

Method #1 Squint for Better Vision. The reason that squinting helps you see is because it changes the shape of your eye, making the pupil smaller, thus letting less light in and making an image clear.
