Origins. Richard Stallman announced his intent to start coding the GNU Project in a Usenet message in September 1983.. When the GNU project first started they had an Emacs text editor with Lisp for writing editor commands, a source level debugger, a yacc-compatible parser generator, and a linker". The GNU system required its own C compiler and tools to be free software, so these also had to be ...

What is C/ C++? C was one of the first general-purpose high-level programming languages to gain almost universal use, and today you can program in C on almost any platform and machine. It was created by Dennis Ritchie in 1971, as the successor to the "B" compiler, for UNIX systems. C++ allows programmers to leverage their knowledge of C with the use Object Oriented (OO) concepts, to create ...
