Solution of an equation. Every equation in the unknown x may be rewritten as =by regrouping all terms in the left-hand side. It follows that the solutions of such an equation are exactly the zeros of the function .In other words, "zero of a function" is a phrase denoting a "solution of the equation obtained by equating the function to 0," and the study of zeros of functions is exactly the same ...

Zero of a function - Wikipedia

The slide rule, or slipstick, is a mechanical analog computer.The slide rule is used mainly for multiplication and division, and also for "scientific" functions such as roots, logarithms and trigonometry, but usually not for addition or subtraction.. There are many different styles of slide rules. They are usually linear or circular. They have a standardised set of markings (called scales).
