Definitions of "Science Fiction" And what do we even mean by "science fiction" anyway? In one sense, the first article to define the field was published over 150 years ago, before the field was widely acknowledged to exist: New Species of Literature "We learn that Mr. R. A. Locke, the ingenious author of the late 'Moon Story' or 'Astronomical Hoax,' is putting on the stocks the frame of a new ...

The line bar = foo does not copy the contents of the variable, only its "object reference". To understand what is going on here, we need to know how lists are stored in the computer's memory. In 4.1, we see that a list foo is a reference to an object stored at location 3133 (which is itself a series of pointers to other locations holding strings). When we assign bar = foo, it is just the ...
