The Solution Explorer lists files included in the project. In addition to that, files not included in the project but contained in the project folder can be shown using the 'Show All Files' button at the top

of Solution Explorer. Adding Files. Files can be added to the project in several ways:

Solution Explorer | PHP Tools for Visual Studio Documentation
The Solution Explorer pane in Microsoft SQL Server Management Studio provides containers called projects for managing items such as database scripts, queries, data connections, and files. One or more projects that are related to each other can be combined in a container called a solution.

Solution Explorer - SQL Server | Microsoft Docs
In that file, there are platform-specific files that are included in some cases. When open in the IDE, the IDE has the correct per-file context, but there's no way to pick them in the solution explorer. The solution explorer should show all these files (possibly with some parenthesis that show the applied precondition).

Solution Explorer doesn't show files conditionally ...
After the last update, I recently find out my AS 7.0 solution explorer fails on show all files when the project folder has any sub-folder. To test it, I simply created a new solution and click the show all files button on solution explorer.

AS solution explorer show all files failure | AVR Freaks
Solution Explorer with only project files show. If you set "Show All Files", you can select an existing folder that is not part of the project, and "Include In Project". This solved my issue, but it may also come in handy in the future when manually adding third-party libraries, or just viewing the node_modules folder.
